

**Module 2: Assumptions and Worldview**

**Exercise 2-3 Examining Assumptions**

Have a look at your core assumptions about the nature of the Universe. Really give the exercise some thought. In order to shift our perception of our life stories, deeply and completely, so that we can move into gratitude and away from anger and self-pity, we must take on some absolutes. Can you accept as absolutely true the proposed assumptions for the remainder of this course? Can you move into this framework with your mind and allow your heart to let go of the armor that has protected it all these years? Are you ready to open to the wonder that is you, and accept that everything in your life has served you?

When I look deeply at my core beliefs, I believe that (checkboxes are clickable):
