Video 2-4 Exercise 2-2 The “Vows of Love”

Please go to Downloads for Exercise 2-2 and read the “Vows of Love.” These vows express a conscious agreement between two people who have agreed to play a unique role in a conscious intimate relationship – with the divine purpose of mirroring the light and the shadow in the other on the soul’s journey to wholeness.

Please read these vows with someone: a significant other, wife, husband, girlfriend, boyfriend, brother, sister, child, parent – anyone who might be willing, preferably a person your soul is dancing with in this way.

This process acknowledges that two people are in The Dance of Souls – each creating behavior in the other and triggering the “projector” to run the unconscious wounds upon the other, like a movie screen.

Until the two people become conscious of this dance, they will suffer unduly. Their love for each other will be plagued by “abusive” behaviors that prevent them from seeing and experiencing the love they feel.

They may become estranged, only because they lack the understanding of The Dance of Souls – or are unwilling to become conscious and deal with the wounds that can be frightening to face.

One must admit for a moment that one is not perfect – only to find out we truly are more perfect than we can imagine. We will dive deeper into this in the upcoming modules.
